

# CYBER SAFE AT HOME

The internet can be interesting, educational and FUN! It can also be unsafe if you do not understand how to use it. Read the following as a family, and then add any of your own family's ideas about how to responsibly use electronic devices! Post this in your home for easy reference.

## *I PROMISE:*

Never to give out my name, address, phone number, school name, or any adult's credit card number to anyone online.

Never to arrange a face-to-face meeting with anyone I meet online.

Never to say mean things, bully someone, send mean pictures, or gossip about other students with a computer or cell phone.

Never to go anywhere online unless my parents say it's okay.

Never to open emails from someone I don't know and never to go to links I don't recognize.

Always to tell an adult if I see anything that makes me feel uncomfortable online or in a text message.

## *Our family rules:*
